

SMSF Audit:

The huge numbers of Australians are choosing to manage their own super through Self Managed Superfund (SMSF). About more than one million Australians are currently investing their retirement fund by SMSF. Once you set up an SMSF, you have to manage your investment portfolio by own choice that will create a better value than investing through others (such as industry super or retail super company). End of the year there is a bit compliance work for trustee to complete. Trustee has to prepare SMSF annual report and financial statements. Before sending them to ATO you have to appoint an ASIC registered SMSF auditor.

We are the ASIC registered auditor for SMSF. Our audit team members are highly experienced in auditing SMSF. They provide professional services to the client in a nice and cordial manner. They are also highly cooperative to the client to prepare their compliance work. All of them are the member of CPA Australia and the Institute of Public Accountants.

Why a person should set up SMSF?

There are a number of reasons to set up an SMSF. Some of the benefits of SMSF are mentioned below for your information. If you need more details please call us. Our friendly team members will assist you in this regard.

- Full control over own super benefits.
- Greater investment flexibility.
- Lower compliance fees compare to other industry or retail super.
- Better performance than other super fund.
- Opportunity to consolidate multiple members (maximum 4) super account into one umbrella.
- Greater tax saving strategies.
- Higher satisfaction in managing own investment portfolio.
